Alabama Society of CPAs
Outstanding Member in Business and Industry Award
Nomination Form

CPAs who are leaders in business and industry are changing the face of corporate America by providing new strategies to help lead their respective organizations to new heights of success. Blending information technology with financial decision making and new management techniques, CPAs are turning data into strategic information. As you complete this form, please describe how you:

- Managed processes, technology and resources to create value.
- Demonstrated leadership and commitment.
- Acted as a strategic business partner or leader.
- Provided vision and knowledge of board business issues.
- Understand key non-financial and cross-functional measures and principals.
- Champion change and non-traditional methods and approaches.
- Demonstrate commitment and leadership in adopting technological change.
